I'm a front-end developer passionate about creating innovative solutions. With a degree in Computer Science in progress, I constantly seek to improve my technical skills and apply them to challenging projects. I have experience in web development, knowledge in UX/UI design and a base in API development. I am an efficient communicator and work well in collaborative teams. I am always willing to learn and open to new challenges.

Main skills: Ease of learning, problem solving and communication and collaboration.

[ACADEMIC EDUCATION]

Computer Science (2022 - 2026)
Cruzeiro do Sul Virtual

[EXPERIENCES]

Alterdata Software (March/2023 - At the moment)
Support analyst
Instruct customers in queries, fix errors in the PostgreSQL database and create algorithms on the system's internal platform using variables.

Avant Fiscal (July/2022 - December/2022)
